robotic
mower

PRECISION MOWING. MAXIMUM PERFORMANCE.

Enjoy cord-free lawn care with the Madimack Mower, available in two models to suit your needs: one for lawns up to 750m² and the other for up to 1500m². Both models adapt intelligently to lawns of all shapes and sizes, delivering optimal coverage with safe, efficient operation. Their adjustable cutting heights make them perfect for a variety of grass types, while the advanced lithium-ion battery ensures reliable, long-lasting performance.

Step into the future of lawn care with the Madimack Mower and experience effortless, worry-free lawn maintenance.

Operating modes

Select from the Smart Path, Random, Edge Mowing, and Spot Mowing modes for the mower to operate. It will then automatically return to the charging station.

Obstacle avoidance sensors

Equipped with ultrasonic, collision, lift/tilt and rain sensors.

Waterproof

Fully waterproof (IPX6), the mower is easy to clean for easy maintenance.

Turbo/Smart/Silent mode

These modes adjust the cutting the motor speed. "Turbo" for fast growing season and tough condition, "Smart" for daily mowing, "Silent" for 1cm cutting length.

Advanced lithium-ion battery

The quick charge battery provides extended endurance and hours of operation.

Password-protected

Prevents unauthorised use and adds layer of theft protection.
