magZEN
POOL MINERALS

A blend of magnesium-rich minerals

that naturally softens and improves
the quality of your pool water.

Counteract dry skin, irritated eyes and chemical-
heavy systems - with magZEN Pool Minerals.

magZEN is a premium alternative to traditional
pool salt, designed to improve the clarity
and comfort of your pool water.

Silky, spa-like water

Softer on skin and hair

More comfortable for sensitive eyes

Enhanced water clarity for a
brighter pool

Supports skin hydration and relaxation

Reduced reliance on harsh chemicals

Eco-conscious

A better balance for your pool.

magZEN's magnesium-infused minerals improve water feel, clarity and comfort - creating a more enjoyable swimming experience for the whole family. Designed for use with inverCHLOR Salt & Mineral Chlorinators, the fast-dissolving formula supports effective sanitisation while maintaining optimal water conditions.

“

It feels like a spa experience every time we jump in.
The water is clearer, we're using less chlorine and the kids are far more comfortable, especially their skin and eyes.

- Emma Mitchell, NSW
